

I am a listener of XM Satellite Radio and I benefit from listening to XM Satellite Radio and its traffic and weather channels. Satellite Radio gives me up to the minute in depth reports on traffic and weather that I cannot get elsewhere. This service has been invaluable. In addition, I get a variety of music, talk and other entertainment that I CAN NOT GET ELSEWHERE. I pay a monthly subscription for these services and it should not be up to the National Association of Broadcasters to dictate what you are permitted to hear. Respectfully, I urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that you demand and deserve.
